CRICOS Provider Number 00121B

The level of maximum allowable credit is based upon an assessment of the overall level of the pathway qualification. Specific course by course credit will be issued upon receipt of the first student application to be received into a program, and this assessment will be accessible from that point onwards through the Credit Assessor on the UniSA web page.

Applicants will be made an offer of credit as close as possible to the maximum, dependent upon the level of specific learning outcome compatibility between the pathway program and requested UniSA award.

Yours sincerely
